AUTOMOTIVE & MARINE CARPET

AUTEX

For over 30 years Autex carpets have been the number one choice for marine and automotive carpets. Combining the latest needle punch technology and high quality raw fibres, the Autex carpet range is specifically manufactured for the harsh Australian environment. Testament to its performance and longevity, Autex carpets are used by a majority of Australia's OE marine manufacturers.

KEY PRODUCT FEATURES

- ✓ *UV stabilised*
- ✓ *Stain resistant*
- ✓ *Durable and hardwearing*
- ✓ *Non zip or fray*
- ✓ *Static neutral*
- ✓ *Environmentally friendly*
- ✓ *Custom colours*
- ✓ *Supported with the comprehensive Autex warranty*

CONSUMER GUIDE

When selecting marine carpet there are 3 main criteria to consider; UV stability, durability and care & maintenance. The Autex carpet range is manufactured from solution dyed polypropylene fibre which provides a hard wearing, stain resistant finish that will maintain its good looks for years. Added to these key features, the unique non-woven manufacturing process ensures the carpet will never zip or fray eliminating unsightly and dangerous joins and edges. A complete range of colours and textures provide the most comprehensive marine carpet range available.
